Running your venue on Plotline

Venue owner manual · Edition 1.0 · 6 November 2026

Your practical guide to getting set up, welcoming players and managing bookings.

New to Plotline?
Set up your courts and publish.

Running the day?
Check bookings, approve payments and see earnings.

Something wrong?
Quick fixes and how to reach Plotline.

What to have ready

Gather these details before you sign in.

- [ ] **The Plotline email** with your account-setup link, opened on the email address you gave Plotline.
- [ ] **Your courts:** a name players will recognise for each (for example "Court 1" or "Garden Court 1") and its sport.
- [ ] **Your normal hourly price** for each court, plus any peak or off-peak prices and the hours they apply.
- [ ] **Your weekly opening hours**, including regular breaks such as lunch or maintenance.
- [ ] **Where players should pay:** the GCash, Maya or bank account name and number you check every day, and a QR code screenshot if you have one.
- [ ] **Your rules:** how far ahead players may book, how long they have to pay, and how late they may cancel.
- [ ] Optional: **photos** of each court and a wide **banner** photo of the venue, your address and a Google Maps link, and your Facebook or Instagram page.

> **Use a computer for setup if you can**
> Everything works on a phone, but setting hours and prices is quicker on a larger screen. Daily tasks are easy on a phone.

Who does what

YOU (THE VENUE)	PLOTLINE
Courts, prices, hours, payment details, approving payments, refunds to players	Your account, publishing support, online card payments (PayMongo), the monthly fee statement

Understand booking statuses

Find a booking in **Bookings** to see where it stands and what to do next.

Waiting for payment → **Under review** → **Confirmed** → **Completed**

STATUS	WHAT IT MEANS
Waiting for payment	The player has a temporary hold and needs to pay and submit proof.
Payment under review	Proof has arrived. Check the transfer and approve or reject it.
Confirmed	Payment is accepted and the court time is reserved.
Completed	The confirmed booking's play time has ended.
Expired	Payment proof did not arrive before the hold ended. The time opens again.
Rejected	Proof was rejected too many times. The time opens again.
Cancelled	The player or venue cancelled the booking. The time opens again.

When proof is rejected
If the player has attempts left, the booking returns to Waiting for payment with a fresh hold. A successful online payment can confirm automatically.

Next: See how money moves →

How money moves

For a manual payment, the player transfers the full booking total directly to your venue.

Who gets the money

Players pay **you**, straight into your own account. On top of your court price, each confirmed online booking carries a **₱10 booking fee**, so the player sends the total. After the month ends, Plotline sends the venue an invoice for the fees due.

ONE 1-HOUR BOOKING AT ₱400	AMOUNT
Court price (yours)	₱400
Booking fee (Plotline's)	₱10
The player sends you	**₱410**

What happens next
Check that ₱410 reached your account before approving the proof. The ₱10 fee appears in Reports and is included in the venue's monthly statement.

If a confirmed booking is cancelled

WHO CANCELS	BOOKING FEE	REFUND
Venue	Credited on your statement	Arrange with the player outside the app
Player	Still owed to Plotline	Arrange with the player outside the app

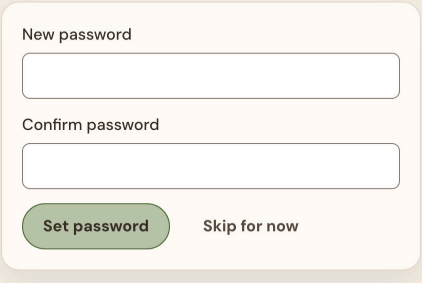

Next: Sign in to your venue →

Your first sign-in

Which steps you follow depends on whether you already have a Plotline password.

New to Plotline: set a password

1. Open the latest email from Plotline. Check it names your venue, then tap its account-setup button.
2. On **Set your password**, type a new password (at least 8 characters) in both boxes and select **Set password**. The Dashboard opens.
3. Bookmark the page. Next time, sign in at your venue's address ending in **/admin/login** with your email and this password.

Avoid **Skip for now**: without a password you will need a new link from Plotline to get back in.

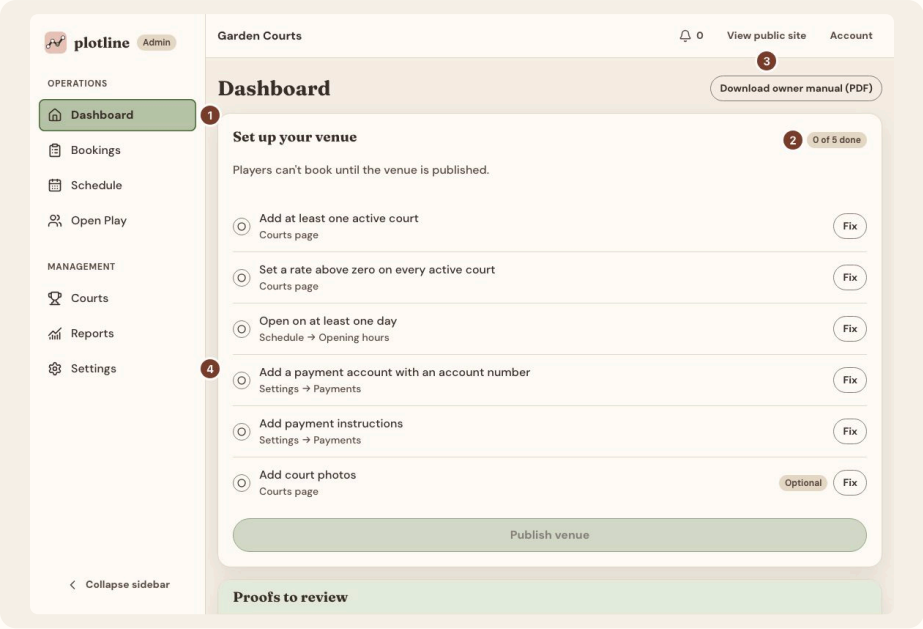

Already have a password

Go to your venue's admin address and sign in with your usual email and password. Until the venue is published, the page is titled **Staff sign in**.

> **Keep links private**
> The setup link signs you in. Don't forward it. If it has expired or opens the wrong venue, ask Plotline for a new one (page 22).

Find your way around

Every page is in the menu on the left. On a phone, tap the ≡ button at the top to open it.

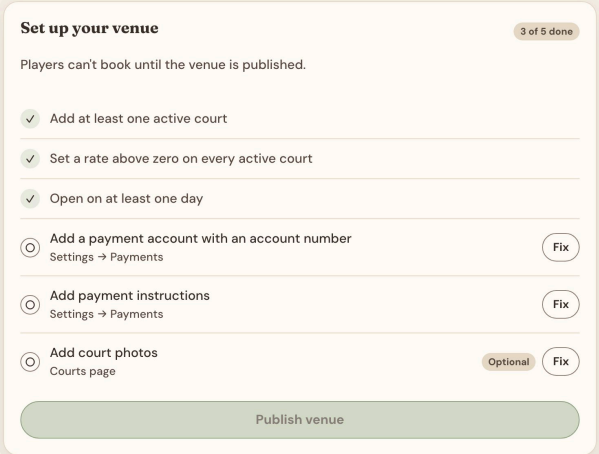

1. **Operations:** Dashboard, Bookings, Schedule and Open Play, the pages you use every day.
2. **Set up your venue:** counts what is still needed before players can book. It disappears once you publish.
3. **View public site** opens your venue's booking page as players see it. The bell beside it counts new bookings.
4. **Management:** Courts, Reports (your Plotline fees) and Settings (payment details, rules, appearance).

On a phone

The same menu slides in from the left. **Account** (top right) is where you sign out. If you manage more than one venue, check the venue name at the top before changing anything.

Publish in five steps

Players can't see or book your venue until you publish it. The checklist on the Dashboard tracks the five required items.

Three of five done. Select **Fix** on any open item to jump straight to the right page.

REQUIRED ITEM	WHERE TO DO IT	PAGE
1. At least one active court	Courts → Add court	8
2. A price above zero on every active court	Courts → the court	8
3. Open on at least one day	Schedule → Opening hours	9
4. A payment account with a number	Settings → Payment Setup	13
5. Saved payment instructions	Settings → Payment Setup	13

Court photos are optional and don't count toward the five. At **5 of 5 done**, select **Publish venue**. Then check your page as a player would (page 14).

Courts and base prices

Each court has a sport and a default hourly price. Peak prices come later, under Schedule.

Open **Courts** and select **Add court**.

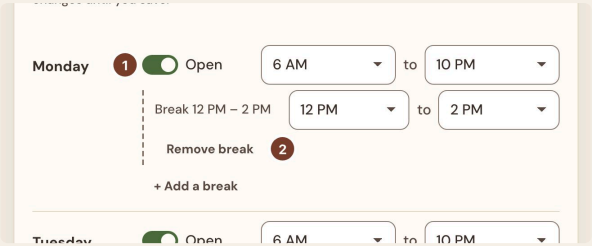

1. **Name**: what players will see, such as “Court 1”.
2. **Sport**: players filter by sport, and a booking can only move to a court of the same sport.
3. **Default hourly rate**: your normal price per hour, in pesos.
4. Leave **Active** ticked and select **Create court**.

The saved court opens so you can add photos. The first photo is the cover; use **Make cover** to choose another. To edit a court later, open it from **Courts** and select **Save changes**.

Closing a court for good
Untick **Active** and save. Players can no longer book it, and its past bookings stay in your records. You can delete only a court that has never been booked.

Opening hours

Open **Schedule**. Opening hours, Prices, Promos and Closures are tabs on the same page.

1. For each day, use the switch 1 to set **Open** or **Closed**, then choose the opening and closing hour.
2. For a regular break, select **+ Add a break** and choose its start and end. **Remove break** 2 deletes it.
3. To repeat a day, use **Copy hours from**, pick that day, then choose which days to copy it to.
4. Check **Week at a glance**: green is bookable, striped is closed.

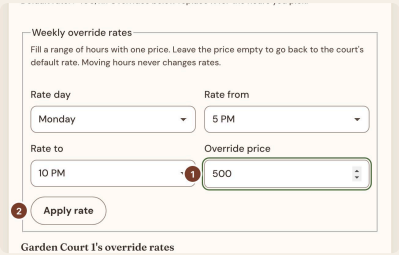

One court keeps different hours? Under **Courts with different hours**, pick it and select **Give this court different hours**. A notice confirms you are editing that court only. **Use opening hours** puts it back on the venue's hours.

> **Nothing is saved yet**
> Your changes wait in a draft until you select **Review & save** in the bar at the bottom of the page (next page).

Peak prices, then save

An override price replaces the default rate for chosen hours, for example weekday evenings.

1. On the **Prices** tab, choose the court, the **Rate day** and the hours (**Rate from**, **Rate to**).
2. Type the hourly **Override price** 1 and select **Apply rate** 2. Repeat for other days.
3. To go back to the default rate for some hours, apply them with the price left empty.

Select **Review & save**. The summary lists every change on both tabs.

Bookings outside the new hours lists existing bookings in the next 90 days that fall outside your new hours. They are not moved or cancelled, so contact those players yourself.

Select **Save changes**. **Discard** in the bottom bar throws the whole draft away.

New prices apply to new bookings only. Existing bookings keep the price they were made at.

Limited-time promo prices

For a launch week or a quiet weekday morning, add a promo on the **Promos** tab. It replaces your usual price for the hours you choose.

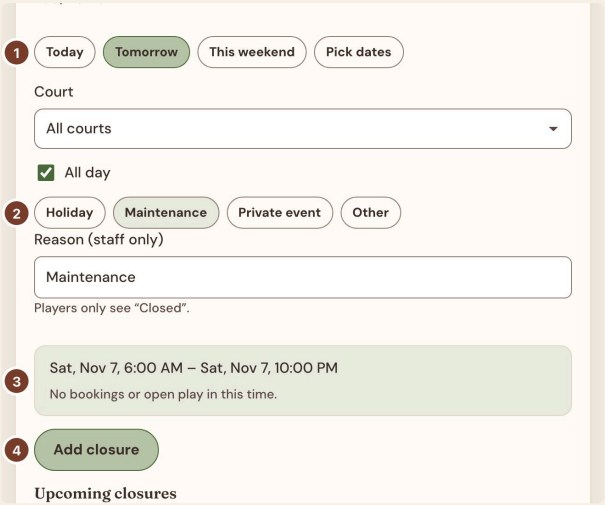

1. Select **Add promo** and type a **Label** players will see, such as “Weekday morning promo”.
2. Choose **Starts on** and **Ends on**, the **Days**, the **Courts** and the hours (**From**, **Until**).
3. Type one **Price per hour** for all the courts you ticked. Courts that need a different price need their own promo.
4. Select **Save promo**. Unlike hours and prices, promos save straight away. Players see the promo price and label on the booking page.

Pause or remove it. Untick **Active** to pause a promo, or choose **Delete** in the list. Two active promos cannot cover the same court, day and hour in the same dates.

Bookings already made keep the price they were made at.

Close for a day or an event

For a holiday, repair or private event, use the **Closures** tab. Your weekly hours stay as they are.

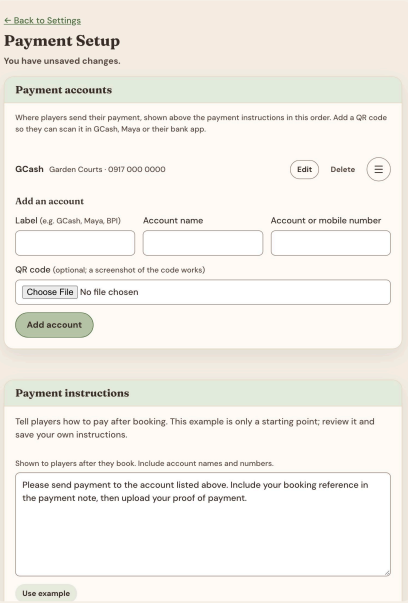

1. Choose **Today**, **Tomorrow**, **This weekend** or **Pick dates**. Then choose **All courts** or one court. **All day** covers the whole operating day; untick it to set hours.
2. Pick a reason or type your own. Only staff see it; players just see "Closed".
3. Read the summary. It shows the exact time span and warns about any bookings or open play already in it.
4. Select **Add closure**. It appears under **Upcoming closures**, where **Remove** reopens the time.

Closures never cancel bookings
Players already booked in that time keep their booking. Move or cancel them yourself in Bookings (page 18).

How players pay you

Open **Settings → Payment Setup**. Players see these details right after they book.

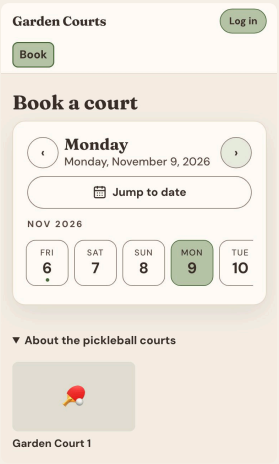

1. Under **Add an account**, enter a **Label** players know (GCash, Maya, BPI), the **Account name** and the **Account or mobile number**. Add a QR code screenshot if you have one. Select **Add account**.
2. Under **Payment instructions**, select **Use example** and edit it: what to put in the payment note, and that players must upload a screenshot of their receipt. Select **Save instructions**.

Use an account you check every day

You approve each booking by matching its proof to money that really arrived (page 17). **Online payments** on this page shows whether card payments are on. Ask Plotline to change it.

See what players see

After publishing, select **View public site**. Check each court, its hours and prices on a few different days.

Players choose a day…

…then tap free hours. Monday shows the break and ₱500 peak.

Make the page your own

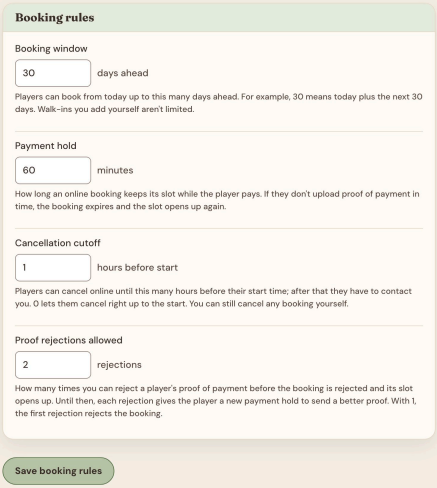

Each section under **Settings** has its own Save button, so save before you leave a section.

- **Venue Profile**: venue name, city, street address with a Google Maps link, contact and social links. Timezone, currency and slot length are shown here; ask Plotline to change them.
- **Website Appearance**: colour preset, banner photo, amenities, arrival information and the order sports appear in.
- **Policies & Waivers**: the waiver players must accept when booking online. **Reset to default** loads standard wording to edit. Saving it blank turns the waiver off.

A listing in Plotline's venue showcase is separate from publishing; ask Plotline.

Booking rules

Settings → Booking Rules decides how far ahead players book, how long they have to pay and when they can cancel.

RULE	ALLOWED	WHAT IT MEANS
Booking window	1–365 days	30 = today plus the next 30 days.
Payment hold	5–1,440 min	Time to upload proof before the booking expires and the slot reopens.
Cancellation cutoff	0–168 h	After this, players must contact you to cancel. You can always cancel.
Proof rejections allowed	1–10	Rejections before the booking is rejected for good. Until then, each rejection gives the player a fresh hold to try again.

Choosing a payment hold

Allow enough time for a transfer and a screenshot, but not so long that unpaid holds block your busiest hours. 30–60 minutes suits most venues.

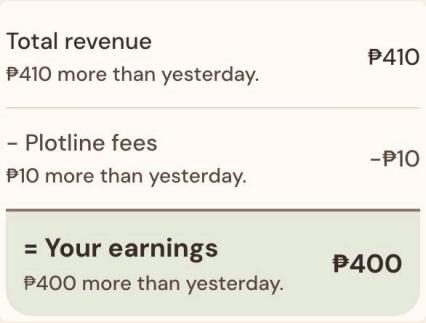

Your day on the Dashboard

Open the Dashboard first each day. It answers three questions: what needs approving, who is playing and what you earned.

1. **Proofs to review** shows how many payments are waiting. Select **Review proofs** to work through them (next page).
2. **Today's courts** lays out each court by hour. Tap a booking reference to open it. **Today's schedule** lists the same bookings with their status.
3. **Earnings** covers Today, This week, This month or a custom range.

Today's courts

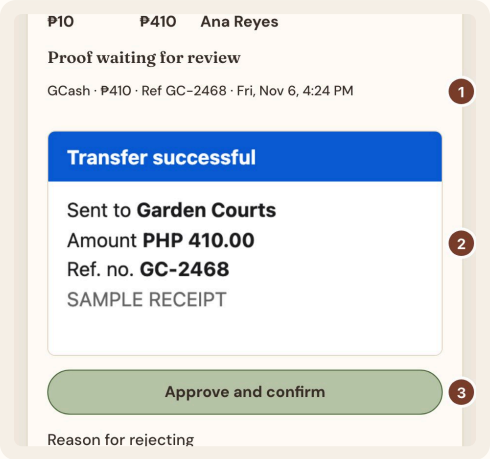

₱410 received, less the ₱10 fee, leaves ₱400 for you.

Further down: **Collected** by payment method, **Coming up** (confirmed bookings still to be played), **Booked hours** per court, a collected-per-day chart and **Export** to download bookings or payments as a spreadsheet (CSV). Tick **Include contact details** only when you need them, and store the file safely.

Approve or reject a payment

Open **Bookings**. It starts on **Needs review**, the bookings with a proof waiting. Select one to see its details.

1. The method, amount and reference the player entered.
2. Their receipt screenshot. Tap it to enlarge.
3. **Approve and confirm** confirms the booking.

Approve only when all three hold:

- [ ] The money is in **your** account (check your GCash, Maya or bank app, not just the screenshot).
- [ ] The amount equals the booking's total (₱410 for a ₱400 hour).
- [ ] The reference matches your account history.

If something doesn't match

Write what is wrong in **Reason for rejecting**, for example "Amount received is ₱400; please send the remaining ₱10", and select **Reject proof**. The player sees your reason. Whether they can try again depends on **Proof rejections allowed** (page 15).

Card payments
A successful online card payment confirms by itself. If you see **Refund due** or **Check duplicate**, the money arrived but the booking couldn't take it. Check it and refund the player outside the app.

Find, move or cancel a booking

Find a booking

In **Bookings**, type a reference (such as CB-GARDEN), a name or an email and select **Search**. Search covers every booking, whatever the filters say. **Clear search** returns to the Status, Source and Date filters.

Move a booking to another time

1. Open a confirmed booking that hasn't finished and select **Reschedule**. For a booking already under way, choose the hour to move from; earlier hours stay where they are.
2. Choose the new date, a court of the same sport and a free start time. Write a reason; the player sees it.
3. Check the **Moving** and **To** summary, then select **Move booking**.

The price and payment carry over, and no new fee is charged. Moving only part of a booking creates a second reference for the moved part; note it down.

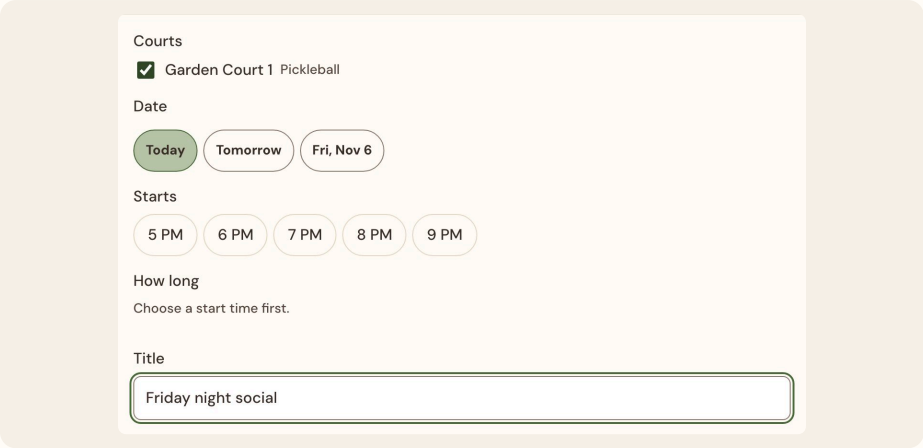

Cancel a booking

Open the booking before it ends. Under **Cancel booking**, write a reason and select **Cancel booking**. The player sees the reason and the time becomes free. Cancel any moved part separately.

WHO CANCELS	BOOKING FEE	REFUND TO PLAYER
You (the venue)	Credited back to you on your statement	Arranged by you, outside the app
The player	Still owed to Plotline	

Open play sessions

Open play reserves one or more courts for a group activity, such as a social night or a clinic. Players see it on the booking page but can't book those hours.

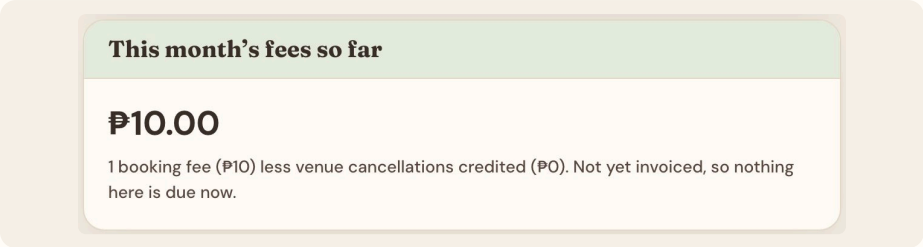

1. Under **New session**, tick every court the group will use and pick the date.
2. Pick a start time and **How long**. Only times when all the ticked courts are open appear.
3. Add a **Title**. Use **Details** for skill level, price and what to bring. To link an RSVP form or group chat, fill in a link label and an address starting with https://.
4. Select **Add session** and check it under **Upcoming sessions**.

To change a future session, select **Edit**, update it and select **Save changes**. **Delete** removes it and frees the courts. Plotline doesn't take payment for open play; collect any fee your own way.

Your Plotline fees

Open **Reports**. Plotline charges nothing to set up or each month. You only pay the ₱10 booking fee that players already sent you with each confirmed online booking.

This month's fees so far

A running total for the current month: booking fees, less credits for bookings **you** cancelled. Nothing in it is due yet.

Amount due

After a month ends, Plotline sends an invoice for it. **Amount due** adds up the invoices you haven't paid. Each shows its due date, and an **Overdue** label once that date has passed. Pay using the instructions Plotline sends with the invoice.

Check an amount

Choose a **Month** to see its totals and how players paid. In **Charges**, search a booking reference to find its fee and open the booking. Under **Invoice history**, **Details** lists each invoice's fees, credits and total, and paid invoices show the payment recorded.

> **Paid, but still showing as due?**
> Email Plotline with your venue name, the invoice month and your payment reference.

Daily, weekly and monthly checklist

Print this page and keep it at the front desk.

Every day

- [ ] Dashboard: clear **Proofs to review**, checking each transfer in your own account before approving.
- [ ] Look at **Today's courts** before opening, and again in the afternoon for late bookings.
- [ ] Bookings: check **Needs review** again before closing so no player waits overnight.

Every week

- [ ] Schedule → Closures: add holidays, repairs and private events for the next weeks.
- [ ] Open Play: post next week's sessions.
- [ ] Earnings → This week: compare **Collected** with your GCash, Maya and bank history.
- [ ] View public site: check prices and hours for the coming days.

Every month

- [ ] Reports: check last month's invoice and pay the **Amount due** before its due date.
- [ ] Earnings → This month, then **Export** the payments CSV for your own records.
- [ ] Review your prices and booking rules against how busy you were.

Whenever something changes

- [ ] New account number: add it in Payment Setup **before** deleting the old one, and update the instructions.
- [ ] New court or price: update Courts and the Prices tab, then **Review & save**.

Troubleshooting and support

PROBLEM	TRY THIS
Setup link expired or opens the wrong venue	Already set a password? Sign in at your venue's /admin/login. If not, ask Plotline for a new link.
Publish venue is greyed out	Open the Dashboard and select **Fix** on each open item. Every active court needs a price above zero.
A **time is missing** on the public page	Check the court is Active, then its opening hours, breaks, court-specific hours, Closures and Open Play.
A **price looks wrong**	Check the Prices tab for that court and day. Did you select **Save changes** after Review & save?
Saving the schedule fails because someone else changed it	Note your edits, select **Reload latest**, then make them again.
A player paid ₱400 instead of ₱410	Check the amount received against the booking total. Reject with a clear reason if the payment is incomplete.

Contact Plotline

Tell us your venue name, the page you were on, any booking reference and the exact message you saw. A screenshot helps. To arrange a call, include a few times that suit you.
